INTERNATIONAL
INDUSTRIES

SUSTAINABLE, INNOVATIVE PACKAGING

At the core of all our products is innovation, and the desire to create true value for our customers. From new packaging ideas that are extremely eco-friendly to building a brand with custom prints that give it a unique brand identity, we have a wealth of technical expertise in delivering functional, creative and disposable packaging solutions, and a wide mix of products that suit every client's need.

Our products meet the changing trends of the marketplace and are quite cost-effective too. They help you gain a competitive advantage and thus maximise your profits.

ALL ABOUT US

A family-run business which started its operations in 1998, International Industries is a full-service manufacturer and distributor of disposable packaging products in India. Over the years, we have been catering to distributors, traders, institutional clients and private labels, and have added over 300 products to our product range. All our products are manufactured in the same facility which comprises around 9 acres of land and 350,000 sq.ft of building area.

We believe that an essential ingredient to our success is our ability to respond quickly to the buyer's needs and create true value for them by offering a wide range of 'perfect quality' products. Our incredible mix of products benefits every buyer, as they can use them in a variety of ways and can also be customised as per their preference. International Industries' sustainable solutions are supported by state-of-the-art manufacturing technologies and a dedicated team of technical experts.

A CUSTOMER CENTRIC APPROACH

We're dedicated to designing sustainable and customised packaging solutions, and to making our customers stand out in the marketplace. We translate trends into innovative packaging solutions enabling you to enter new markets or customers.

OUR VISION

To be the preferred packaging partner, for the food industry by designing customised solutions that are fit for every business need, are cutting-edge and environmentally efficient. We aim to work for a sustainable world by focusing on responsible production and consumption.

OUR MISSION

Deliver to our partners a powerful packaging experience across channels by creating modernistic designs using the latest technology that are high on quality, create minimal environmental impact and bring them maximum profitability.

OUR CORE VALUES

We keep a keen focus on our four key value propositions while designing packaging solutions: Innovation, customisation, partnership, and sustainability.

INNOVATION

We make food stand out with our superior know-how of the market and modern means of technology

CUSTOMISATION

We understand that one box doesn't fit all. That's why we offer custom-made solutions catering to different food needs.

PARTNERSHIP

We promise to bring dedication and invest in a long-term partnership with you as a customer by offering unparalleled customer service.

SUSTAINABILITY

We work to benefit the generations that come after us, by focusing on using green initiatives that don't put a pressure on the environment.

We pledge to reduce our CO2 footprint to Zero by adopting the following eco-friendly measures:

SUSTAINABILITY IS THE FIBRE OF OUR COMPANY

Sustainability is about meeting today's needs without compromising on the ability of future generations to do the same.

Using building blocks such as: reduced material consumption, recyclable solutions, renewable materials, and new technologies and business models we are developing sustainable packaging concepts and economical solutions. We pledge to reduce our CO2 footprint to Zero by adopting the following eco-friendly measures:

1. SUSTAINABLY SOURCED PAPER

Our cups are made with paper sourced from certified plantation forests. Paper is both renewable and recyclable, contributing to a circular economy where materials can be reused to produce new products

2. WATER-BASED INKS

We only use water-based inks for printing our cups, which are free from harmful toxic chemicals, and are made from natural substances.

3. RECYCLABLE IN NATURE

Made from PE-lined paper board, a material that is easier to recycle than milk cartons, they provide a valuable resource that can be reused, reducing the amount of waste sent to landfills. Even our aluminium products are 100% recyclable and can be used in all applications- microwave, oven, grill, freezer.

ALUMINIUM FOILS AND CONTAINERS

HOUSEHOLD

Provides a strong grade of foil for household applications- wrapping and cooking in ovens

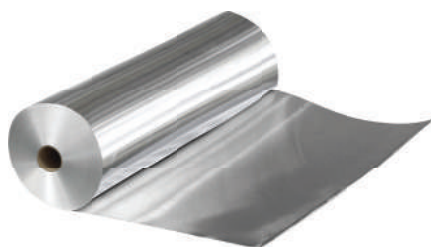

HEAVY DUTY

A thicker version of the foil made for commercial applications

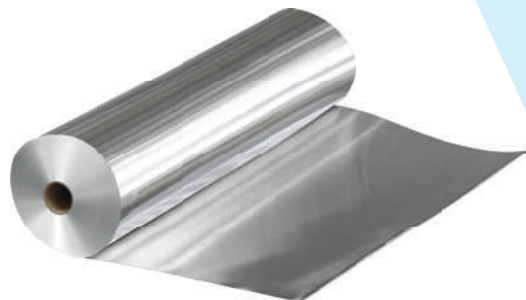

EXTRA HEAVY DUTY

The thickest version of the foil ideal for covering large baking dishes, wrapping heavy food items, and long-term freezing

HEAVY

EXTRA HEAVY

FOR CATERING

LENGTH	WIDTH	THICKNESS
Customised	28-45cm	9-11 micron

WHICH CONTAINER IS IDEAL FOR YOU?

OUR RANGE OF STURDY, HIGH-QUALITY ALUMINIUM CONTAINERS CATER TO A WIDE RANGE OF APPLICATIONS OR USES. FOR EVERY TYPE OF FOOD NEED, WE HAVE A CUSTOMIZED SIZE AVAILABLE TO FIT IT.

ROLLED EDGE

This container provides additional strength and support to the food item, and avoids any spill over. The edges are curved and smooth offering an easy, firm grip.

HEMMED EDGE

This kind of a container has a lip that folds back inside, so that you can avoid the sharp edges. This type of container can be used for taking away or storing slightly more heavy food than the rolled edges container.

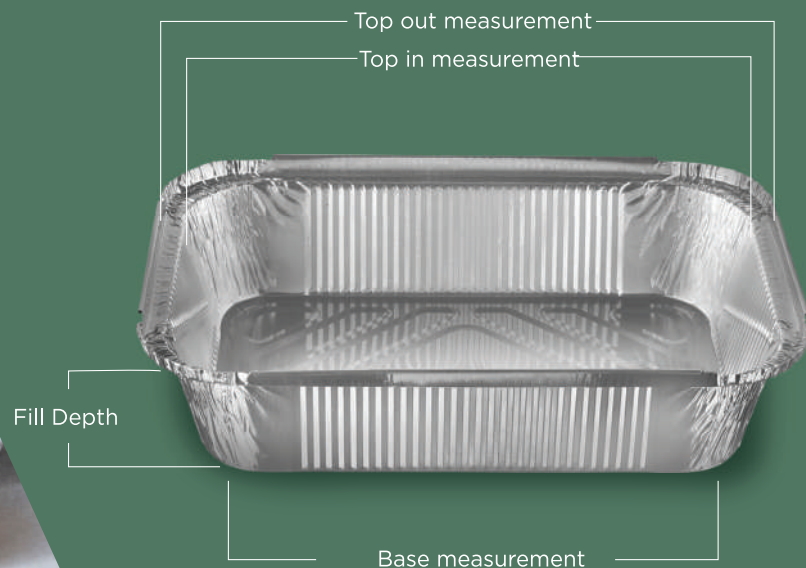

VERTICAL FLANGE & INTERRUPTED CURL

This container provides straight, strong edges that make it suitable for use with a firm lid. The interrupted curl allows the corners of the container to be folded securely, holding the food firmly in place.

MEASUREMENT GUIDE

Our containers have clearly indicated measurements that help you identify the ideal container for your need.

PIE & DESSERT
CONTAINERS

These rounded, pie containers are perfect for small to mid-size bakeries or sweet & savoury shops looking to maximise profits with tasty, ready-to-eat bites. They come in 4 round shapes and 1 muffin cup shape.

Ideal for: pies, pastries, puddings.

TAKEAWAY
CONTAINERS

Heating, serving and storing is now easy, thanks to these meal containers that have been designed with strength, durability and presentation in mind. The vertical flange provides a firm grip to store hot and cold food items. Economic and versatile, these microwave-safe containers are available in a wide range of sizes. The eco-friendly lids prevent a moisture layer from accumulating inside, and thus keep the food warm and fresh. Ideal for storing puddings, breads, lasagne, pasta, etc.

BEVERAGE CUPS

OUR ADVANTAGES

We offer the most comprehensive range of cups in many sizes, many types and for many purposes- to hold hot, cold, super chilled beverages. With exceptional quality and stunning aesthetics, these bio-degradable cups are sure to boost and create a positive brand impact.

WHAT MAKES OUR CUPS DIFFERENT?

SUSTAINABLY SOURCED PAPER

These cups are made with paper sourced from certified plantation forests. Paper, being a renewable and recyclable product contributes to a circular economy where materials can be reused to create new products.

RECYCLABLE

Made from PE-lined paper board, a material that's easier to recycle than milk cartons, these cups reduce the amount of waste sent to landfills, and thus can be reused.

PERFECT FIT LIDS

Lids are essential to keep Liquids secure. Our lids are microwave-safe, freezer-safe, and made with 100% food-grade plastic.

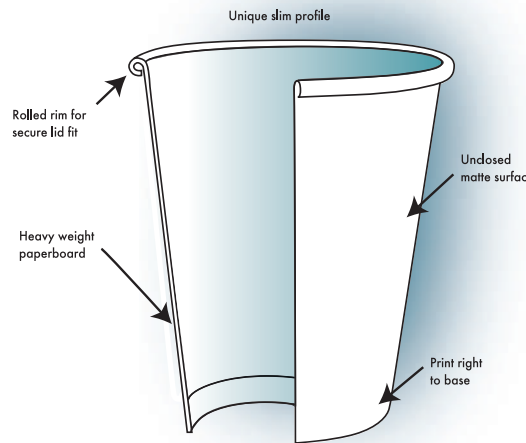

BRANDING & CUSTOM PRINTING

The cups can be designed based on your preferences, whether it's a certain pattern or look and feel you are looking at, or imprint a unique visual identity or company logo on them.

SINGLE WALL CUPS

Attractive, lightweight and biodegradable- single wall cups offer a firm grip and adequate heat protection while holding hotter beverages like tea, coffee or soups. The rolled rim offers a secure lid fit, thus minimising the chances of the drink spilling over. These high quality, durable cups can also be customized as per your preference, and are available in various sizes.
